

Cat6A Cabling Solution

CAT 6A FTP CABLE

Certification:

- UL Cat.6A verified to TIA/EIA 568-B.2-10

Features:

- Rated temperature: 75°C
- High bandwidth 500MHz
- Flammability grade: CM
- LSOH jacket
- Colour-coded PE insulation PVC jacket

Industrial Standard:

- UL 444
- EIA/TIA 568B.2-10
- ISO/IEC 11801
- IEC 61156-5

CAT 6A PATCH PANEL

Features:

- FTP 24 port staggered snap-in patch panel, 1U
- With wire management
- Can be supplied totally or partially loaded
- Backward compatible with Cat 6, Cat 5E and Cat 5
- Jacks fit flush with the front of the panel surface
- Grounding screw attached on the back panel
- UL safety and performance verified

CAT 6A KEYSTONE JACK

Features:

- FTP 90° tool-less keystone jack
- UL 1863 Safety Listed
- Quick grounding bar design
- Transfer impedance passed
- TIA/EIA-568B.2-10 Cat 6A Channel Performance

ANGLE BRITISH FACEPLATE

Features:

- UL safety and performance verified
- UL94V-0 fire retardant plastic
- Backward compatible with Cat 6, Cat 5E and 5

CAT 6A FTP PATCH CABLE

Features:

- 568B wiring
- Cat 6A FTP 26 AWG 7 stranded 4-pair copper wire conductor
- All contacts used with 50u" gold plated
- UL 1863 safety Listed
- TIA/EIA-568-B.2-10/IEC 11801:2002 Amendment
